

## TOP 10 REASONS TO GET A VEGGIEMAT

---

10. You are tired of paying too much for fresh veggies at the grocery store.
9. You always seem to plant your veggies too close and you cannot easily see or pick veggies when they are ready to harvest.
7. Your family forgets to take off muddy shoes after visiting the garden.
6. You never can get every part of your garden watered evenly and there are puddles, dry spots or veggies that look water deprived.
5. You need that great gift idea for someone that absolutely hates weeding.
4. You are entering a veggie garden contest this year and need the best looking veggies or garden in the neighborhood.
3. You really want to see the Triangular Planting technique and how effective it can be.
2. You're tired of your persnickety neighbor producing a better-looking garden than you.
1. **The first year is guaranteed. You have nothing to lose and can enjoy a weed free growing season!**

- ***A method of chemical free weeding***
- ***A moisture trap to keep plants nourished***
- ***A blanket to bring warmth to plants***
- ***A product to increase garden yield***
- ***A gardener's best friend***

## TRIANGULAR PLANTING

*VeggieMat with holes for planting*

The Triangular Planting Method is a technique where plant spacing between rows is done diagonally rather than a cross. The result is the formation of equilateral triangles that move the adjacent row of plants closer. The benefits are as follows:

- Increased plant density
- Increased pollination
- Increased plant yield
- Reduced soil evaporation
- Better garden ventilation

## VEGGIEMAT GARDEN SIZES

**15 x 10** – Up to 50 plants can be planted

**15 x 20** – Up to 100 plants can be planted

**15 x 30** – Up to 150 plants can be planted

**All Other sizes** – Call and we will design a VeggieMat to meet your space needs.

## VEGGIEMAT GARDEN LAYOUT TOOL (COMING SOON)

Do you get frustrated after planting your garden because you run out of space? Do you occasionally put plants too close together stunting their yield? Then use the VeggieMat online Garden Layout Tool.

- Tell us the size of your garden and select the Veggies you want to plant. Our unique web-based software tool will limit the number of plants based on your garden size and layout.
- Still want to plant more Veggies? Then make your garden bigger and the VeggieMat Garden tool will allow more to be planted.
- The VeggieMat Garden Layout tool utilizes the Triangular Planting Technique assuring your veggies get the space they need.

## UV-PROTECTED WEAVED FABRIC

The specially constructed material brings many benefits to growing happy, healthy plants and if stored properly will last for years.

- Durability allowing it to be used multiple growing seasons
- Allows water to pass to root systems, freely
- Permits airflow into the soil and prevents weeds from growing
- Heats the ground promoting plant growth
- No muddy shoes after a rainfall or watering
- Single piece construction. Avoid tripping over seams.
- VeggieMat Recycle Program – Return your VeggieMat to us and we will recycle it.

## WEED BLOCKING POWER

The VeggieMat fabric is a gardener's best friend. Simply plant your veggies in the provided hole, cover the veggie hole area with mulch and reduce weeding efforts by 99%.

- Reduce weeding time and gardening labor
- Less competition for nutrients and water
- Chemical free weeding
- Fewer pests and disease
- A great looking garden

## VEGGIEMAT IRRIGATION SYSTEM (COMING IN 2010)

VeggieMat plans to introduce the home gardener's first irrigation system. Order a VeggieMat Irrigation System and conserve water while providing improved coverage.

- System includes a 4-valve, supply system to direct water to multiple rows of veggies.
- Drip hoses are cut to the precise length of your rows of plants. There is no extra drip hose that is over watering places that don't need it.
- Minimize puddles and dry pots. Drip hoses provide efficient distribution of water.
- Reduce disease by keeping moisture off plant leaves and near to root systems.
